WEATHER OF CONCERN

Weather of Concern

- Gusty north winds are expected across the valleys and mountains of southwest California through Tuesday morning.
 - The strongest wind gusts will occur through the I-5 corridor and in the eastern San Gabriel Mountains of Los Angeles County.
 - Winds will slowly turn more northeasterly across eastern Ventura and Los Angeles Counties later Tuesday morning and decrease through Tuesday afternoon.
 - Expect hazardous cross winds while driving in these areas along with blowing debris and tree damage.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Dominant high pressure and near shore ridging will provide drier and warmer conditions through the week. Afternoon temperatures will be above normal region wide on Tuesday and should last into the weekend. The wind flow will generally be N or NE with the strongest breezes this afternoon through Tuesday. Peak gusts should be no more than 35 mph so the flow doesn't appear to be too strong.

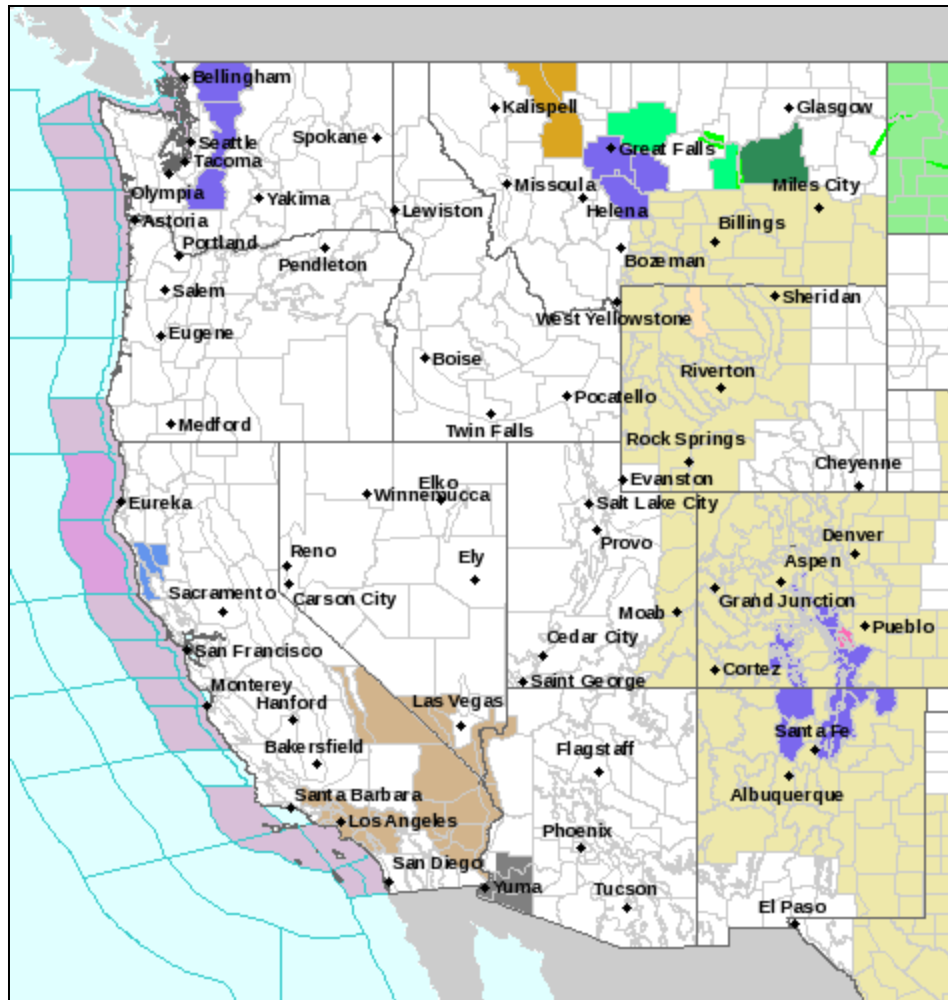

Cannot rule out a weak wave passage during the weekend but suspect drier conditions would continue with little in the way of appreciable moisture. A sneak peak into next week suggests drier overall conditions. Models show a little more precipitation activity compared to this upcoming week although suspect it would be limited to the far north under continued warmer conditions.

SOUTHERN CALIFORNIA

These winds will then increase to 20 to 30 mph with gusts to 50 mph through Tuesday afternoon as a ridge of high pressure builds into California from the Pacific Ocean. Significant warming will occur Tuesday and then gradual warming will take place Wednesday through Friday.

Temperatures will be 5 to 10 degrees above normal Wednesday through Friday. Minimum humidity will be mainly between 15% and 30% through Friday. A weak Pacific trough will drop down the West Coast cooling temperatures to near normal and bringing an increase in humidity this weekend. Westerly winds of 15 to 25 mph with gusts to 40 mph will surface across the mountain ridges and desert passes this weekend. Also, isolated showers will be possible over Central California this weekend.
